- For charging, please connect the Type-C connector to a wall charger, car charger, power bank, PC or laptop with USB port
- For data transfer, please connect the Type-C connector to a PC or laptop with Type-C port.

Disposal and recycling information

The crossed-out wheeled-bin symbol on your product, battery, literature or packaging reminds

you that all electronic products and batteries must be taken to separate waste collection points at the end of their working lives; they must not be disposed of in the normal waste stream with household garbage.

It is the responsibility of the user to dispose of the equipment using a designated collection point or service for separate recycling of waste electrical and electronic equipment (WEEE) and batteries according to local laws.

Proper collection and recycling of your equipment helps ensure EEE waste is recycled in a manner that conserves valuable materials and protects human health and the environment, improper handling, accidental breakage, damage, and/or improper recycling at the end of its life may be harmful for health and environment.
