SAFETY PRECAUTIONS:

1. Read all the instructions before using the product.
2. Do not use on an aircraft or in a hospital.
3. To reduce the risk of injury, close supervision is necessary when the product is used near children.

4. Do not expose the device to any moisture.

5. Do not use the device if damaged or modified.

Damaged or modified batteries may exhibit unpredictable behavior, resulting in fire, explosion or risk of injury.

6. Do not disassemble the device. Take it to a qualified service operator when service or repair is required. Incorrect reassembly may result in a risk of fire or injury.

7. Do not expose the device to fire or excessive temperatures. Exposure to fire or temperatures above 212°F may cause explosion.

8. Have servicing performed by a qualified service operator. This will ensure that the safety of the product is maintained.

Disposal and recycling information

The crossed-out wheeled-bin symbol on your product, battery, literature or packaging reminds you that all electronic products and batteries must be taken to separate waste collection points at the end of their working lives; they must not be disposed of in the normal waste stream with household garbage. It is the responsibility of the user to dispose of the equipment using a designated collection point or service for separate recycling of electrical and electronic equipment waste (WEEE) and batteries according to local laws. Proper collection and recycling of your equipment helps ensure EEE waste is recycled in a manner that conserves valuable materials and protects human health and the environment. Improper handling, accidental breakage, damage, and/or improper recycling at the end of its life may be harmful for health and environment.
