

**FCC8 Fast car charger
User manual
TLL151261**

INTO YOUR FUTURE

Technical specs

- Input: DC 12-24V
- Total output: 6A
- Total power: 36W
- Output USB 1 (QC 3.0): 5V/3A, 9V/2A, 12V/1.5A
- Output USB 2 (QC 3.0): 5V/3A, 9V/2A, 12V/1.5A
- Safety protections: Short circuit, overcurrent, overvoltage and overheating
- Size: 64.5 x 33.2mm
- Weight: 38g
- Material: PC + Aluminum

Instructions

1. Insert the car charger into the car's charging port.
2. Connect one end of the charging cable to the device's charging port.
3. Connect the other end of the cable to one of the charger's USB ports.
4. Disconnect the device when the charging is complete.

Attention

- The charger is NOT waterproof; keep the charger away from liquids and external heat.
- The charger can get a bit warm during charging.

Disposal and recycling information

The crossed-out wheeled-bin symbol on your product, battery, literature or packaging reminds

you that all electronic products and batteries must be taken to separate waste collection points at the end of their working lives; they must not be disposed of in the normal waste stream with household garbage.

It is the responsibility of the user to dispose of the equipment using a designated collection point or service for separate recycling of waste electrical and electronic equipment (WEEE) and batteries according to local laws. Proper collection and recycling of your equipment helps ensure EEE waste is recycled in a manner that conserves valuable materials and protects human health and the environment, improper handling, accidental breakage, damage, and/or improper recycling at the end of its life may be harmful for health and environment.
