**INTO YOUR FUTURE**

## **INTRO**

Thank you for choosing Tellur's FMT-B8 Bluetooth Car FM Transmitter!

The FMT-B8 streams music and calls directly from your Bluetooth device to your car's stereo system, while the built-in microphone helps you keep your calls hands-free. The device is also equipped with a microSD slot and USB flash drive slot so you can enjoy your favorite music (MP3/ WMA /WAV /FLAC) through your car's stereo system.

The two USB ports support device charging with a total output of 3.4A, while the bass button adds more bass to your music.

Please read this User Manual carefully before using the product.

Package includes:

- FMT-B8 Bluetooth Car FM Transmitter
- User Manual

Volume+

Volume-

Rotate clockwise and hold to increase volume.  
Rotate counterclockwise and hold to decrease volume.

## **USING FM TRANSMITTER FUNCTION:**

1. Plug the FMT-B8 into your vehicle's cigarette lighter or power port.
2. Set your car's radio on FM and find a free/unoccupied FM frequency. Adjust the FM frequency on the FMT-B8 Bluetooth transmitter to match the FM frequency of the car's radio.
3. Insert a microSD card or USB flash drive into the microSD slot / left USB slot. The FMT-B8 will play the stored files automatically.

## **USING BLUETOOTH FUNCTION:**

1. Please follow these steps to pair your mobile phone with the FMT-B8: activate Bluetooth on your mobile phone and search for available devices. Select "Tellur FMT B8" from the list and pair the devices (if requested, input password "0000").
2. In music playing mode, the FMT-B8 will automatically switch to talking mode for incoming calls.  
While playing music, if there's an incoming call, the FMT-B8 will switch to call mode automatically.

## **BLUETOOTH CALLING**

1. Press  to answer incoming call.
2. Press  to hang off a call.
3. Press twice  to redial the last number automatically.
4. During a call, long press  to switch to a private conversation.
5. When making a call, you can only dial the phone number from your mobile phone, but once the call is connected to the FMT-B8, you can use the hands-free function to enjoy your conversation.

## **USING USB CHARGING FUNCTION:**

When the FMT-B8 is plugged in your car's lighter socket, recharge your mobile phone by connecting it to the transmitter's USB charging port using an USB cable (not included).

Please note:

maximum output of the right USB (marked with ) is 2.4A

maximum output of the left USB (marked with ) is 1A

To read MP3 /WMA /WAV /FLAC files, use the left USB port.

## **BASS MUSIC:**

In music playing mode, press the "b" button to add more bass to your music. Press the button again to disable the bass booster function.

## **DISPOSAL AND RECYCLING INFORMATION**

The crossed-out wheeled-bin symbol on your product, battery, literature or packaging reminds you that all electronic products and batteries must be taken to separate waste collection points at the end of their working lives; they must not be disposed of in the normal waste stream with household garbage. It is the responsibility of the user to dispose of the equipment using a designated collection point or service for separate recycling of electrical and electronic equipment waste (WEEE) and batteries according to local laws. Proper collection and recycling of your equipment helps ensure EEE waste is recycled in a manner that conserves valuable materials and protects human health and the environment. Improper handling, accidental breakage, damage, and/or improper recycling at the end of its life may be harmful for health and environment.
