Data cable USB to Type-C with LED light

TLL155373

Data cable USB to Lightning with LED light

Glowing connection
Durable. Flexible. LED light.

The most reliable friend is the one who helps you at your darkest.

This new cable range comes with an integrated LED light at the end of the connector that guides you to the smartphone's charging port when the surrounding light is lower, without bothering your eyes.

Data cable USB to Lightning with LED light

Glowing connection
Durable. Flexible. LED light.

The LED cable combines data transmission with charging and is built with a nylon coating that ensures a greater wear resistance and prevents the cable from knotting.
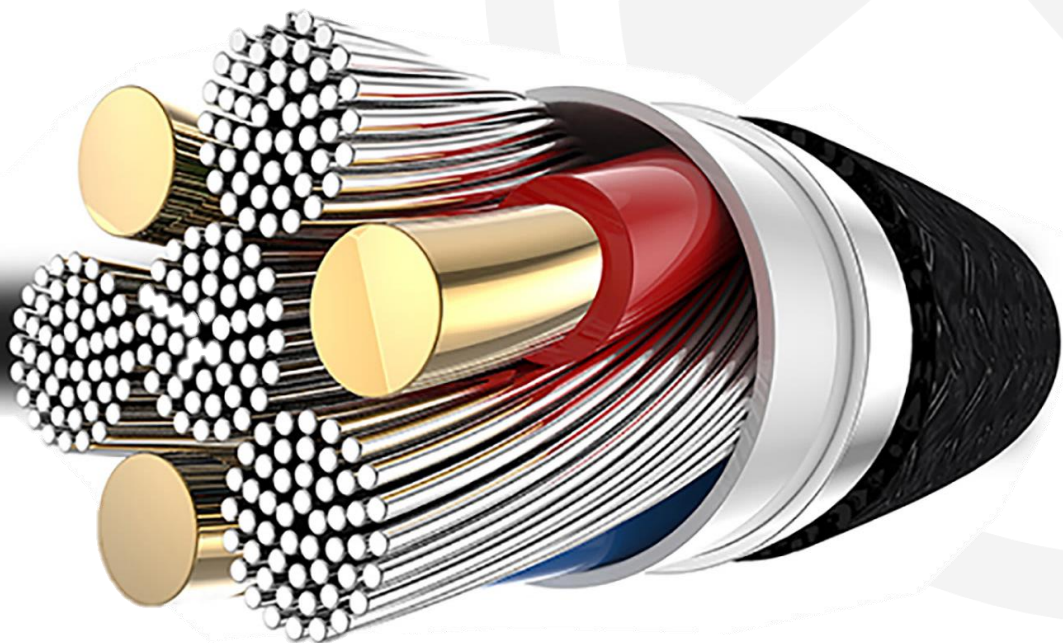

Data cable USB to Lightning with LED light

Glowing connection
Durable. Flexible. LED light.

- The LED light on the Lightning connector end helps you use the cable in dark environments.
- The plastic reinforcements offer greater durability.
- Double function: charging and data transfer.
- Durable nylon weaving ensures strength and flexibility.
