Product description	Ecological innovation in your hand! Tellur Green wireless mouse is the ideal choice if you want to improve your PC accessories and give up to a less environmentally friendly mouse. Made of 35% wheat straw fibers and 65% ABS, the wireless mouse is light and easy to use, it doesn't need any special software - just plug & play. The mouse offers comfort during long use and has a nano receiver that can easily be left in the USB port so you can be sure you won't lose it. Also, you can adjust the DPI setting of your mouse to better suit your activity, having three options to choose from: 800/1200/1600.
