

INSTALLATION GUIDE

01

When installing the convex should face down

02

Align the groove of the filter box with the positioning bar on the top cover, and then push it

03

Please align the top cover water pipe with the water outlet of the pump, otherwise it will not work normally

04

Add water as needed. Plug the adapter into and electrical outlet.

GHID DE INSTALARE

01

La instalare, partea convexă trebuie să fie orientată în jos.

02

Aliniați canelura cutiei filtrului cu bara de poziționare de pe capacul superior, apoi împingeți-o.

03

Vă rugăm să aliniați conducta de apă a capacului superior cu ieșirea de apă a pompei, altfel nu va funcționa în mod normal.

04

Adăugați apă, dacă este necesar. Conectați adaptorul la o priză electrică.
