

## Dash Patrol DC3 4K GPS Dash Cam

Marketing information	
Product name	Dash Patrol DC3 Dash Cam, 4K, GPS, WiFi, Black
Package Product name	DASH PATROL DC3 4K GPS DASH CAM
Headline	Road safety
Product keywords	4k resolution. GPS module. G-sensor.
Main characteristics	<b>4K resolution and Sony sensor for excellent high definition images</b> <b>Built-in GPS module adds your speed and location to every video</b> <b>G-sensor detects Impact and starts recording</b> <b>Parking monitor function - records when motion or Impact are detected</b> <b>Connect it to your smartphone to control and play recordings</b>
Product description	<p>Safety in high definition images! Dash Patrol DC3 is a 4K dash camera that captures videos in 3840 x 2160p at 30fps. The 140° wide angle lens captures everything in front of your car and reduces blind zones. More over, thanks to the 7 glass 1.6 lens and Sony sensor, the images are sharper, more detailed and have bright and vivid color. Loop recording function ensures that the camera will always have room for new videos because it captures 1/ 3/ 5 minutes clips and automatically overwrites the oldest with the newest ones. Dash Patrol DC3 has a built-in G-sensor that is activated by a significant and sudden change in direction, such as a crash or hard braking. When an event like this occurs, the camera starts recording and locks the file on your microSD card, preventing it from being overwritten by loop videos.</p> <p>Also, the parking monitor function keeps an eye on your car while it is parked and with the engine turned off. If it detects movement or impact, the camera automatically starts recording so you will know what happened while you were away from your car. The built-in GPS module makes sure every recording includes information about your speed and location. Connect the Dash Patrol DC3 to your smartphone via WiFi to control it and to play the recordings.</p>
Technical specs	
Usage:	Automotive
Video resolution:	3840 x 2160 30fps 2560 x 1440 30fps 1920 x 1080 30fps or 60fps
Lens type:	7 Glass 1.6
Chipset & sensor:	Novatek NTK96670 & Sony IMX 335
Field of view:	140°
Display:	2.45" Color IPS
Frame rate:	Max 60fps ( 1920 x 1080 )
Sensor resolution:	5 Mega Pixels
Photo resolution:	12 Mega Pixels
Video compression:	3840 x 2160 30fps H.265 , others H.264
Video file type:	MP4
Built in WIFI:	Yes
GPS module:	Included
Speed Display:	Yes
Automatic recording:	Yes
G-Sensor:	Yes
Motion detection:	Yes
Parking monitor:	Yes
Loop Recording:	Yes , 1 / 3 / 5 minutes
Storage support:	Micro SD card, max 128GB, Class 10 (not included)
Battery:	150 mAh
Battery autonomy:	Up to 9 minutes
Power supply:	Micro USB - 5V 2.1A
Mounting:	Magnetic bracket
Bracket mounting:	3M adhesive
Working conditions:	-10° - 60° C
Color:	Black
Package Includes:	Dash Patrol Dashcam DC3 Magnetic bracket MicroUSB cable Dual USB car charger User manual
Product dimensions:	72mm x 36.3mm x 43.8mm
Product weight:	94g
Package dimensions:	182mm x 57mm x 135mm
Package weight:	300g
Product code:	TLL711003
EAN:	5949120003018
