

Magnetic Qi Wireless Car Charger

Product presentation

Magnetic Qi Wireless Car Charger

(TLL151091)

Wireless charging, magnetic holder,
easy to use, irreplaceable in your car

For those moments when you need an always active co-driver next to you, the Magnetic Qi Car Charger gives you the necessary energy, especially when you travel by car.

The simple and easy-to-use design makes it easy for your phone to charge. The charger is made of aluminum and a rubber edge is applied over the loading area to help ensure a better stability for your smartphone.

Magnetic Qi Wireless Car Charger

(TLL151091)

The Magnetic Qi Auto Car Charger has a clamping clip that allows installation in the ventilation grille of the car and with the 3M Adapter from the package can be mounted on any flat surface.

The package also includes a magnetic ring that enhances the magnetization process and improves the smartphone's hold and stability. This ring can be glued either directly to the phone case or inside the case.

Magnetic Qi Wireless Car Charger
