Graphene PD 10000mAh power bank

High speed charging

Graphene technology. Fast charge. Increased longevity.

Characteristics:

- ⊗ Revolutionary Graphene technology ensures the battery remains cool and increases its longevity by three times;
- ⊗ Full recharge in only one hour with the included 60W wall charger;
- ⊗ Supports 10W fast wireless charging for all Qi devices;
- ⊗ Recharge multiple devices simultaneously via PD Type-C or QC3.0 ports.

The revolutionary Graphene technology is now available in a power bank – the GPD100 Graphene Wireless 10000mAh power bank! This cutting-edge material ensures that the battery remains cool during recharging and extends its life up to three times. Moreover, the power bank supports USB-C PD technology and can be charged at a rate of up to 60W. This means the GPD100 capacity of 10000mAh can be fully recharged in just one hour with the included 60W wall charger. Thanks to its 10W wireless output, you can fast charge any Qi compatible device. More than one device to recharge? No problem! The GPD100 power bank allows you to recharge multiple devices simultaneously via PD Type-C or QC 3.0 ports. Protection functions keep your device safe from short circuit, overcharging, overdischarging, overcurrent.
