Technical specs

Battery: Li-Ion

Capacity: 5000mAh/18.5Wh

Type-C input (PD 3.0): 5V/2.A, 9V/2A

Lightning output (PD 3.0): 5V-3.0A/9V-2.22A/12V-1.66A

Features: LED power indicator, Rapid recharge,
Pass-through charging.

Protection functions: Short-circuit, overcharge,
overdischarge, overcurrent

Dimensions: 78 x39 x 25mm

Weight: 93g

Available colors: Black

Package includes:

1 x Power bank PD203

1 x USB-A - USB-C cable

1 x Manual

Disposal and recycling information

The crossed-out wheeled-bin symbol on your product, battery, literature or packaging reminds you that all electronic products and batteries must be taken to separate waste collection points at the end of their working lives; they must not be disposed of in the normal waste stream with household garbage. It is the responsibility of the user to dispose of the equipment using a designated collection point or service for separate recycling of waste electrical and electronic equipment (WEEE) and batteries according to local laws. Proper collection and recycling of your equipment helps ensure EEE waste is recycled in a manner that conserves valuable materials and protects human health and the environment, improper handling, accidental breakage, damage, and/or improper recycling at the end of its life may be harmful for health and environment.
