INTO YOUR FUTURE

Technical specifications

- Input: AC 100-240V; 50/60HZ; 2.0A Max
- Type-C output (PD1 3.0): 5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/3.25A (65W), PPS 3.3V-11V/3A
- Type-C output (PD2 3.0): 5V/3A, 9V/2.22A, 12V/1.67A (20W max)
- USB output 1/2 (QC3.0): 5V/3A, 9V/2A, 12V/1.5A (18W max)
PD1 + QC1 Output: 45W+18W (63W)
PD2 + QC2 Output: 5V/3A (15W)
- Total power: 65W
- Features: US, EU and UK power cables
- Protection functions: Short circuit, overcurrent, overvoltage, overtemperature
- Size: 101.5 x 37 x 38mm
- Weight: 200g
- Available colors: Black
- Compatible PD devices: Macbook Air 2020, iPad Pro 12.9", iPad Pro 10.5", iPad Pro 11", iPhone 13/ 13 Pro/ 13 Pro Max/ 13 Mini, iPhone 12/ 12 Pro/ 12 Pro Max/ 12 Mini, iPhone 11/ 11 Pro/ 11 Max/ XR/ X/ XS Max/ XS/ 8 Plus/ 8, Samsung S22 Ultra/ S22+/ S22, Samsung S21+/ S21, Samsung S20 Ultra/ S20+ /S20, Samsung S10+/ S10/ S10e, Google Pixel 6 Pro/ 6, Google Pixel 5, Google Pixel 4 XL/ 4/ 3a XL/ 3a/ 3 XL/ 3
- EU plug adaptor can be used in: European Union countries, South Korea, Russia, Algeria, Afghanistan, Argentina, Egypt, United Arab Emirates etc.
- UK plug adaptor can be used in: United Kingdom, United Arab Emirates, Hong Kong, India, Pakistan, Singapore, Malaysia, Vietnam, Indonesia, Maldives, Qatar etc.
- US plug adaptor can be used in: US, Canada, China, Japan, Brazil, Mexico, El Salvador, Honduras, Nicaragua, Costa Rica, Philippines, Thailand, Taiwan etc.

Instructions

1. Plug the charger into your wall socket using the suitable power cable plug for your country.
2. Connect one end of your charging cable to your device's charging port (laptop, smartphone, power bank, portable speaker, etc.)
3. Connect the other end to the USB or Type-C port on the charger.
4. Unplug your device when fully charged.

CAUTION

Do not disassemble or throw into fire or water, to avoid causing a short circuit.

Do not use the charger in severely hot, humid, or corrosive environments.

This product is not a toy, please keep it away from children to avoid unnecessary accidents.

Troubleshooting

- Check if the power source is working properly.
- Check the integrity of the charging cable
- Unplug and plug the charging cable

Disposal and recycling information

The crossed-out wheeled-bin symbol on your product, battery, literature or packaging reminds you that all electronic products and batteries must be taken to separate waste collection points at the end of their working lives; they must not be disposed of in the normal waste stream with household garbage. It is the responsibility of the user to dispose of the equipment using a designated collection point or service for separate recycling of waste electrical and electronic equipment (WEEE) and batteries according to local laws. Proper collection and recycling of your equipment helps ensure EEE waste is recycled in a manner that conserves valuable materials and protects human health and the environment, improper handling, accidental breakage, damage, and/or improper recycling at the end of its life may be harmful for health and environment.
