Nokia: Lumia 830, Lumia 920, Lumia 930, Lumia 1020, Lumia 1520

Google: Nexus 4, Nexus 5, Nexus 6

1. Plug the cable into the appropriate adapter and connect it to the wireless charger. The LED indicator will flash once and the charger will enter standby mode.

(Note: For best results, use an adapter that corresponds with the technical specifications from the image below.)

2. To recharge, place your Qi-enabled device on the charging pad. The LED indicator will stay lit.

Attention:

To assure the fast charging function, please place your smartphone at the center of the pad.

An incorrect placing may influence the charging speed or even result in charging disconnection.

- For an efficient charging, it is recommended that the thickness of the phone's case be less than 2mm. A case thicker than 5mm may lead to slow charging or even charging failure.
- Do not use a metal case.
- Only the product in a temperature range of 0 - 45°C.
- The fast charging function requires a minimum QC2.0 adapter (not included!).
- Keep the charger and receiver away from water or any other liquids.
- If you want to clean the charger, make sure the power is disconnected.

Disposal and recycling information

The crossed-out wheeled-bin symbol on your product, battery, literature or packaging reminds you that all electronic products and batteries must be taken to separate waste collection points at the end of their working lives; they must not be disposed of in the normal waste stream with household garbage. It is the responsibility of the user to dispose of the equipment using a designated collection point or service for separate recycling of waste electrical and electronic equipment (WEEE) and batteries according to local laws. Proper collection and recycling of your equipment helps ensure EEE waste is recycled in a manner that conserves valuable materials and protects human health and the environment, improper handling, accidental breakage, damage, and/or improper recycling at the end of its life may be harmful for health and environment.
