Wi-Fi Flood Sensor

A sense of security

- ❖ Compatible with Tellur Smart app, perfectly integrated in the Smart Home ecosystem
- ❖ Acoustic and push notifications for water detection
- ❖ Low battery notification
- ❖ Works with classic AAA batteries with low energy consumption

Wi-Fi Flood Sensor

Increase your sense of security with Tellur's Wi-Fi Smart Flood Sensor. The sensor integrates perfectly in the Smart Home ecosystem and you can see its working status by simply accessing the Tellur Smart app from your smartphone.

When the sensor detects water, it alerts you through an acoustic alarm and a push notification sent to your smartphone. Also, you will be notified on your smartphone when the batteries are running low.

The Wi-Fi Smart Flood Sensor is only compatible with 2.4GHz Wi-Fi.
