Product description	<p>Clean and shiny windows, effortlessly with Tellur's WiFi Robot Window Cleaner. This suction-based cleaner can also be used on a variety of other surfaces, such as mirrors or shower-door glass. The high vacuum power makes sure the robot will hold onto the glass tightly and the edge detection and pressure sensing functions prevent it from falling. Moreover, the robot cleaner is equipped with a built-in backup battery to prevent power failure and a 4.5 meters long safety rope that ensures double protection and security for your device.</p> <p>The robot window cleaner offers three cleaning modes that you can select from its remote control or using the Tellur Smart app. Based on the program, the robot calculates and programs an optimal cleaning path for maximum efficiency.</p> <p>The Robot Window Cleaner uses water spray to dissolve dirt and high density fiber cloths that thoroughly scrub windows, leaving them sparkling clean. After the task is completed, the robot stops automatically.</p>
