

Smart WiFi Robot Window Cleaner, RWC02

| Product name Package product Parket Heading Tellur Smart WIFI Robot Window Cleaner, RWC02, 72W, two water tanks, and fail, while Package product Mayor Product geyords Smart Hill Robot Window Cleaner, Smart Hill Robot Window Cleaner, Experimental Status, and Fail, 2000, 200 | | Marketing informat | ion |
|--|------------------------------|---|---|
| Package product name Headning Street Wirk Fikzor Window Cleaner Product Keywords Cifection and safely faitures: strong 33000g app, safely concerve cleaning Main characteristics Multiple protection and safely faitures: strong 33000g app, safely concerve cleaning Product description Experience the future of window cleaning with Tellur Smart WFI Robot Window cleaner. With is suggest the low concerve cleaning destate resurces to honory clean in one non-kar cleaning with the Smart Fulur Socyation Product description Experience the future of window cleaner in the Smart Fulur Socyation Product description Experience the future of window cleaner in the Smart Fulur Socyation and stafely fait action to the Smart Fulure socyation and stafely fait actionation of cleaning destate and ys status and window is at accomaticality returns to its starting point. With 2 water tanks and spraying in 3 directions, left, fig1, and downs will spratche like income to for so Smart SMI Fait Sociation (Smart WFI Fait Aming Martine Sociation (Smart WFI Fait Aming Martine Smart Fuler Consection (Smart WFI Fait Aming Martine Hand Martine Cleaning modes to site (Smart WFI Fait Aming Martine Smart WFI Fait Aming Martine KI Martine Martine Cleaner (Smart WFI Fait Aming Martine | Product name | | |
| Product keywords Influence Main characteristics Multiple protection and sefery features: strong 3000pg qr/p, safety cond, battery backup, sensors for edge-free surfaces and Cleaning modes to shart Fallur accession. Product description Faperience the faure of window cleaning wholes from your Window cleaner. Winh is surface and surfaces is return your windows and sensors. Shart Fallur accession Product description Faperience the faure of window cleaning white is faure and window cleaner. Winh is surface and sensors. Shart Fallur accession Product description Faperience the faure of window cleaning with relation faure cleaning modes to and your subject is all contracted with relations and window cleaner. Winh is subject is all contracted with relations and window cleaner with iter subject is all contracted with relations and window cleaner with iter subject is all contracted with relations and window cleaner with relations and window cleaner with relations and with relation and window cleaner with relation and window cleaner with relations and with relation and window cleaner with the Smart Tellur eccession and update your cleaning modes to all contracted with relations and with relation and window cleaner with relations and with relation and window cleaner with relations and with relation and window cleaner with relations and with relation and window cleaner with relations and with relation and window cleaner with relations and with relations and with relations and with relations and with relation and window cleaner with relations and with relation and window cleaner with relations and with relations and with relations and with relation and window cleaner with relations and with relations an | Package product name | | |
| Efficient corner cleaning Main characteristics Cleaning modes for any statution and automatic return to the startery backup, sensors for odge-free surfaces and Cleaning modes for any statution and automatic return to the startery backup, sensors for odge-free surfaces and Cleaning modes for any statution and automatic return to the startery backup, sensors for odge-free surfaces and cleaning modes for any statution and automatic return to the startery backup, sensors for odge-free surfaces and characteristics Product description Experience the future of window cleaning with multiple protection teatrors. Including strong 3000g offs, safety cool and store or edge-free surfaces and characteric. Choose from vertice cleaning matter earses. It through cool and store or edge-free surfaces and characteric. Choose from vertice cleaning matter earses. In theorable clean for additional species Product discription: ZM Vertice is startery backup, sensors for odge-free surfaces and protein status. Theorem cleaning matter starters. Theorem cleaning matter starters. Product discription: ZM Theorem cleaning matter starters. Theorem cleaning matters. Theorem cleaning matter start | Headline | | |
| Main characteristics Multiple protection and safety features: strong 3000pe grip, safety cord, battery backups, sensors for edge-free surfaces and submater counts to its strating point. Wain characteristics Literation for the Smart Tellur counts in the strating point. Product description Experiment for the smart Selection features. International and the smart Tellur cocystem. Product description Characteristics < | Product keywords | | |
| Product description provides better coverage, ensuring no spot is offu untouched. Its efficient correr cleaning active a storage, additional active acti | Main characteristics | Efficient corner cleaning Multiple protection and safety features: strong 3000pa grip, safety cord, battery backup, sensors for edge-free surfaces and Cleaning modes for any situation and automatic return to the starting point 2 water tanks, spraying in 3 directions: left, right, down. | |
